

Harbor Springs Area Historical Society

SHAY DAYS

July 12 & 13, 2024 | 10 am - 3 pm

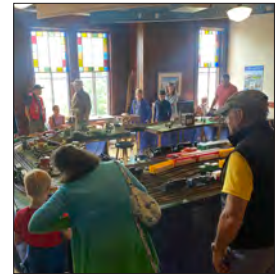

This two-day, family-friendly event, now in its 26th year, celebrates inventor and Harbor Springs resident Ephraim Shay who was famous for his patented, geared locomotive.

We will host a variety of activities and educational programs this year, including:

- Live model steam trains with the Michigan Small Scale Live Steamers
- Historic toys and games with reenactors from Hartwick Pines State Park
- Children's crafts, games and STEM activities
- Logging demonstrations with Kyle Bagnall of Mackinac State Historic Parks

We believe that Shay Days stands at the heart of our mission to bring history to life in the Harbor Springs area. *For that reason, we do not charge an admission fee and ask for donations only.*

**To offset expenses, the Historical Society is seeking sponsors for Shay Days.
We hope you will consider supporting this great event.**
